Duties

Duties

As a SUPPLY TECHNICIAN, GS-2005-5/6/7, duties include:

1. Performs routine and non-routine material coordination duties for special programs, maintenance or production shops.
2. Responsible for local management of decentralized and decontrolled items which requires technical intervention to assure effective supply support and economy. Items are less stable or standardized and do not lend themselves to routine control through the use of the computer and variable supply level formulas. Plans requirements, both quantitative and monetary, to satisfy customer needs. Authorizes procurement and is responsible for funds management.
3. Responsible for limited aspects of storage management. May develop and install local procedures and techniques to achieve and maintain smooth, effective, and coordination storage operations.
4. Maintains an accurate automated accounting and reporting system of property book equipment for units and activities within the State. In coordination with the Director of Logistics (DOL) monitors on hand assets and recommends actions to improve logistical readiness within the FRA. Participates in segments of management studies on the distribution of equipment assets and makes recommendations based on analysis. Monitors and participates in the redistribution of unit excess by recommending transfer and turn-in of property book items as appropriate. Directs lateral transfer of equipment as recommended by the DOL. Reviews disposition instructions of outgoing major end items to validate excess status prior to shipment. Monitors/reviews transactions that updated property accounting balances of the Tactical Enterprise Logistics Systems (TELS) to isolate errors and provide guidance to correct deficiencies.
5. Conducts property book reconciliations. Reviews document registers, document files, suspense files, and account records to verify postings and consistency with automated/manual property book balances. Instructs unit personnel on proper posting procedures and makes corrections. Prepares reports on the condition of records, shortages, excesses, corrections, and actions recommended to improve property accountability in accordance with regulatory guidance. Maintains a suspense file of reconciliations, pending actions and other pertinent data pertaining to property accountability. Maintains the logistical file to support property book reconciliations. Reviews the Department of the Army authorization documents to ensure that accurate postings are made to the GCSS-Army System. Processes and maintains letters of authority (LOA) for additional required equipment.
6. Maintains contact with such agencies of the Department of Defense (DOD), Department of the Army (DA), National Guard Bureau (NGB) and other states and units to resolve problems within responsible areas. Communicates with Army Material Command (AMC), Defense Logistics Agency (CLA) and NGB program Managers to affect receipt of required equipment to support State readiness objectives. Recommend changes to regulations and local directives pertaining to property book and related areas. Reviews and validates equipment need for incoming major end items and Total Package Fielding (TPF) within the state. Monitors warehouse capacity and recommends receivable shipment sizes during fieldings.
7. Manages serialization tracking programs within the Supply Support Activity (SSA). Maintains program files and ensures accurate submission of reports and reconciliation to the proper agencies in accordance with regulatory requirements. May operate and maintain Logistics Information System (LIS) hardware, to include system updates, perform records researches, and data input and corrections. Provides automated reports or queries for internal and external customer requests.
8. Manages replacement of equipment. Processes all requests for replacements of equipment to and from organization and activities external to the Command. Coordinates requests with the Command as appropriate. Prepares documentation for the replacement of equipment and ensures the closure of lateral transfer IAW SOP.
9. Establishes plans, schedules, and controls the maintenance and repair of a variety of equipment such as communications and electronic equipment. Implements maintenance plans and monitors progress of accomplishments. Provided status of equipment, maintenance actions in progress, and location of equipment. Inputs data regarding work order information, status changes, supply updates and other pertinent information using GCSS-Army. Makes on-the-spot adjustments to repair priorities on routine or reoccurring processes necessitates by unscheduled maintenance requirements.
